# REPORTS EXAGGERATED.

Commit Suicide on Trivial Pretexts.

NEW HAVEN, Conn., May 10 .- Rev. Wm. S. Ament, of Peking, China, in an address before the congregation of Dwight-place Church, who supported him, on the situa-

tion in China, said in part: "I believe the reported atrocities by the allies are exaggerated. Chinese women are apt to commit suicide on trivial pretexts. A family quarrel may make a woman hang herself, or difficulty with her mother-in-law may make her jump into a well. You have many explanations for the outbreak in China. You think it was begun by a Buddhist priest who practiced mesmerism. He organized societies. Incantations were practiced. Charms were worn and all sorts of preventives against death and harm.

The Christians were attacked because they

offered the least resistance. "As to the indemnity: When we missionaries were ordered to vacate the British legation we went with 2,000 native Christians to the premises of a Chinese prince. We forced no doors; we violated no rights. The | 9,000 employes, and in the wage increase prince had fled. We sold the movable property after consultation with the foreign ministers. When it came to the question of collecting indemnities. Li Hung Chang sent a representative to confer with us. We agreed that the villages were to be assessed indemnity for the outrages to provide for the homeless and destitute widows and children. Li Hung Chang's representative suggested that an amount equal to onethird of the whole sum should be added and distributed generally to such persons. That is the explanation of the extra one-third referred to in regard to the indemnity,'

# Fatal Collision of Trolley Cars.

PITTSBURG, May 10 .- In a street car colision to-night at Brushton H. S. Cunningham, conductor on one of the cars, was so report is now on file in the office of the auditor badly hurt that he died soon after in a of said county. All bidders are required to furhospital. William Rodacker, conductor, sh a good and sufficient bond payable to the and Rev. I. J. Brown, of Brushton, were State of Indiana in double the amount of their painfully bruised and cut. The accident respective bids. Said board reserves the right to reject any or all bids. By order of the Board was caused by the burning out of a motor on a Frankstown car, which dashed down a steep hill and crashed into a car on the interested, not only of the main line, but GENOA. Hamilton-avenue line.

CONDITION FOR BUSINESS.

The Pennsylvania Preparing to Meet Competition in All Directions-Equipment of Lake Shore.

of the properties as being of the highest standard for this season of the year and in good shape to handle prospective heavy travel. The winter in Indiana, Ohio and Illinois was unusually favorable to the maintenance of track, and not in many years have the roads come out of the winter with tracks in so good a condition. The Cincinnati, Hamilton & Dayton, Chief Engineer be considerably improved, President Woodford having decided to put some of the handsome surplus earnings of the past year into betterments of the road and equipand eliminating curves. The Big Four will lay a considerable mileage of new heavy steel, do a good deal of gravel ballasting and considerable in the way of improvement of stations. Receiver Malott, of the Vandalia, who has expended considerable sums of money during the receivership, laying many miles of new steel, many hundreds of thousands of new ties, rebuilding bridges, etc., contemplates more expendicondition as to run along for several years with very light expenditure.

Trunk-line presidents, vice presidents and executive officers closed ther conference in New York yesterday after having reached an agreement whereby the unsettled condition in east-bound export rates stated by an official that the conference agreement was necessary for the mutual chefit of railroads, export shippers and ompeting export points, and was much in the nature of a community of interest agreement. The same official declared that the intention of the trunk-line presidents was not to increase rates generally, but only in such cases as by the rearrangement | the Union Railway Company's books and according to the new basis would require | affairs are handled in his department. The according to the new basis would require music publishers' concern of C. F. Peters | an equalizing advance. No definite action was taken by the officials further than the agreement to the basis on which the rates | at the Union Station since it was opened shall be figured. The meeting adjourned to | in 1853. First the late William Jackson was meet in Chicago in two weeks and adjust | ticket agent, then the late Aaron Orr, and the rates for the present according to the pliable basis. The heads of trunk lines hope by this action to abate the chaotic inditions which have for some time ex-Vernher, Beit & Co. have begun a suit for | isted in export freight rates to the inconlibel at London against Arthur B. Mark- venience of the roads and the frequent in-

Pittsburg Post. If the Gould system undertakes to build a line to parallel the Panhandle, the Pennsylvania Company will proceed at once to London says: "The statement has been main line so as to make it absolutely perfect between Pittsburg and Columbus. The greater part of this money will be spent on this end of the main line. Third and fourth tracks will be extended, grades reduced and urves cut out. The big curve and grade at Lockton, near Carnegie, will have to go, and the deep cut at Crafton will have to be widened for four tracks. The Pennsylvania is determined that in case competition in Panhandle territory has to be met they will meet it with the most strenuous determination to hold all their business. They have a great road now between Pittsburg and Cincinnati, Chicago and St. Louis, but there are various defects, made necessary by the topographical conditions that had to be faced, and it will require an exinjured. Owing to the air brakes failing penditure of \$10,000,000 to bring the road up to work the train dashed through the sta- to the condition aimed at by the men who are at the head of the Pennsylvania sys-

with the heads of the departments and with conditions over the entire system in traffic, transportation, operating and legal matters of the road.

in improving the property and will lay additional steel rails and rebuild a number and Cincinnati division, is proud of the MAY IRWIN The Woman Who been expending money quite liberally in im- | the history of the road, running six trains each way daily, have they arrived at Indianapolis on schedule time so nearly as for some months past.

James Keegan, master mechanic of the Grand Rapids & Indiana, has been appointed a member of the Board of Public Works at Grand Rapids, Mr. Keegan left Fort Wayne fifteen years ago to become foreman of the shops at Grand Rapids, and on the death of Master Mechanic Bradley, ten years ago, was appointed master mechanic of the company's shops. E. B. Hutchinson, claim agent of the Pennsylvania's Indianapolis division, said yesterday, that a person who had nothing to do with the adjustment of claims would be surprised at the exemption from accident to trainmen since the automatic coupler has come into general use. Prior to that, one hundred hands or arms were

crushed when coupling cars where two are The Lake Erie & Western has eight construction trains at work on its main line distributing new rails and ballast. Since the Lake Shore took control of the property seventy miles of new steel rail, weighing seventy-five pounds to the yard, has been laid, and enough steel has been pur-chased to lay the main line from Sandusky to Lafayette with this heavy rail. Before

the season closes it is proposed to ballast with gravel 250 miles of the main line. The nine auditors who examined the books of Charles Stilz, general ticket agent at the Union Station, report that they were more than pleased with the manner Union Railway Company has been very fortunate in the selection of ticket agents following him the late J. R. Donough, all of whom left excellent records for correctness in business methods.

William R. McKeen, jr., son of William R. McKeen, of Terre Haute, ex-president of the Vandalia, who went to North Platte, Neb., two years ago, to take the position of general foreman of the Union Pacific shops at that point, has been promoted to be master mechanic of the Wyoming division, with office at Cheyenne. These are much larger shops that those at North Platte, doing the work of the Wyoming division, which covers 528 miles of main line and some short branches. Before taking service on the Union Pacific Mr. McKeen was foreman of the Vandalia shops at Terre Haute, and many improvements of his designing have been of much advantage to the Vandalia. For twenty years or more past it has been the custom of the Pennsylvania to furnish engineers, conductors and yardmasters who have been in the service for ten years with annual passes for themselves and wives over the line. Agents who have been in service for a like period of time think they should be entitled to the same consideration, and have intimated a desire in that direction, arguing that their average salacy is considerably below that of the class of employes who are favored with passes and their duties much more onerous. The agents do not think they are willfully discriminated against by the officers of the com-

pany, but that the matter has never been properly brought to their attention. The equipment of the Lake Shore is 524 locomotives, 430 coaches, 21,058 freight cars of all descriptions. The cost of maintenance was, in the last fiscal year, for locomotives \$1,555,657, for passenger equipment, \$336,476, and for freight equipment \$1,800,477. This expenditure includes the cost of new equip ment purchased and built as follows: Sixtyseven locomotives, nine passenger cars and dianapolis division of the. Big Four, re- 1,008 freight cars of all descriptions. During the year 124,000 miles of new steel rails were laid, 687,283 cross ties put in, 151 miles of wire fence built and 144 miles ballasted with gravel, cinders or stone. The Lake | Cincinnati express, s. Shore proper operates 2,733 miles of main line and branches, including leased lines. Superintendent Taylor, of the Louisville division of the Pennsylvania, takes exceptions to the claim that the Panhandle track between Indianapolis and Columbus is in the best condition of any of the Penn sylvania lines west. While less improve ments have been made to the Louisville division the last two years, prior to that more money was expended between Indianapolis and Louisville to bring the road up to a high standard than on any other part of the Pennsylvania system west, and so well was the work done that with ordinary repairs the last two or three years the track is still one of the best 110 miles in Indiana. Ohio or Illinois, and trains can be run safely over it, Superintendent Taylor says, at almost any speed attainable by a
